© Alfred Gossler, from: Aav, Tapio Wirkkala eye, hand and thought, Porvo 2000, p. 29, fig. 71.

In 1958, Tapio Wirkkala designed the anniversary show of Finland's most important metal and goldsmith manufacturer, Kultakeskus. Since the beginning of the 1950s, Wirkkala has been delivering designs and prototypes for Kultakeskus and had already celebrated success with them at the Triennale exhibition in Milan in 1954. In his role as chief designer of Kultakeskus, Wirkkala designed the 40th anniversary show at the Stockmann department store in Helsinki. Not only the furniture, but also many of the exhibits were penned by him. In the auction we are presenting a floating sculpture in the shape of a star as designed by Tapio Wirkkala for the furnishing of the anniversary show. The exhibition staging is documented in historical photographs (see exhibition catalog 'Tapio Wirkkala. Finnish Design - Glass and Silver, 2016, p. 216). According to the consignor, only seven copies of the floating stars were made.
